

Formed in 2011 by five close friends, **Surroundings** are a melodic hardcore/metal band from Perth, Western Australia. Fuelled by a passion to create refreshing music within the genre, **Surroundings** have crafted a unique blend of heavy guitar work and ambience not too dissimilar from the world of post-rock.

Having worked on their debut album for the last couple of years '**Of Bane, Burden & Change**' summarises a fresh outlook on life and the journey of emotional struggle, recapping the importance that a positive influence can have on life's route and the need to follow your happiness to achieve fulfilment.

Mixed and Mastered by Brian Hood at 456 Recordings, (Gideon, Erra, Sworn In, Being as an Ocean) **Surroundings** are set to take a strong stance in the Australian heavy music scene with the release of their debut album '**Of Bane, Burden & Change**'.
